

# Safety Tips for Children

Since security is the prime concern for yourself as well as parents, you should protect yourself with **affluent traffic knowledge**

While you are crossing roads:

- Avoid playing in lane and jaywalking
- Watch out crossing cars
- Identify traffic signals
- Follow traffic instructions

**Green commuting** can be achieved through accumulation of small progress everyday

Advice:

- Learn basic requirements of green commuting from parents and teachers thus raise your consciousness
- Suggest your parents to walk, ride or take public transportation vehicles instead of private cars
- Learn to walk home with the companion with your friends when capable

# Travel Advice for Parents

For the security of your children, please follow **specific traffic orders** in the school district

While you are driving :

- Slow down and pay attention to pedestrians
- Drive in the prescribed lanes
- Park in dedicated depots to reduce road occupancy
- Avoid long-time stay at school gate after delivery

Set positive representative for your children in **green commuting**

Advice :

- Walk or bicycle may be nice choice especially when you live in adjacent neighborhood
- Select public transportation vehicles for long-distance travel to get familiar with the urban space
- Encourage children at senior levels to walk home alone to promote self-independence
